

SECRETARY SPEAKER SERIES

PROTECTING CALIFORNIA AMIDST EXTREME HEAT

AUGUST 3, 2021 | 12:30-1:45 PM

THE EVENT WILL BE LIVE-STREAMED ON ZOOM.
[REGISTER HERE](#)

Summer temperatures are spiking across the American West as climate change intensifies, reaching over 120 degrees in some parts of California this summer. This extreme heat threatens public health, exacerbates drought and wildfire conditions, and strains our state's power grid. It also impacts some Californians much worse than others.

**JOIN US FOR AN IMPORTANT DISCUSSION ON HOW WE CAN
BEST PROTECT CALIFORNIA COMMUNITIES FROM THIS CLIMATE
CHANGE-DRIVEN THREAT.**
